# 5 Check points for the Perfect fit

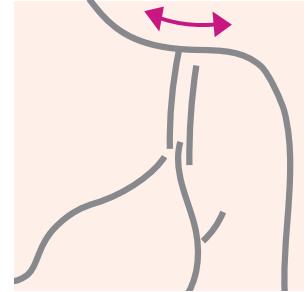

## Band

From front to back should be parallel to the ground, and it should not curve up or down.

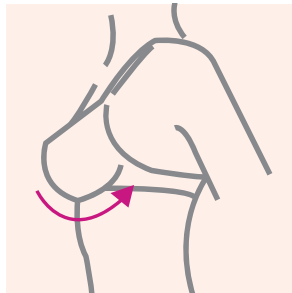

## Cup

Size has to be right. If too big, the cup will gape open and if too small, the breasts will overflow on top.

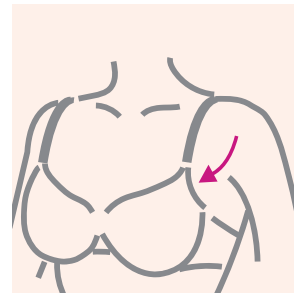

## Straps

Should not dig in to your shoulder. 2 fingers should comfortably pass between the shoulder and the strap.

## Bottom Curve

Should sit flat against your chest and the cups should not rise away from your body.

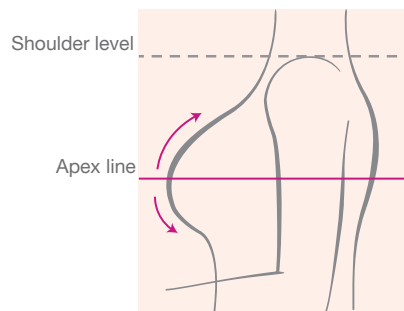

## Armhole

Needs to sit without loose gaping or tight spillage.

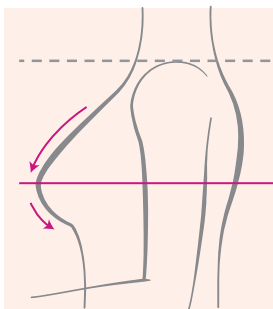

# Know the shape of your bust

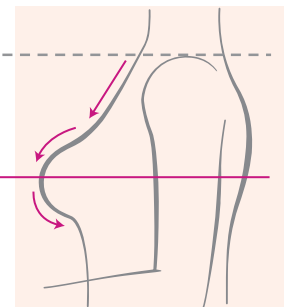

## Fabulously full

The breast tissues are completely round above and below the apex.

## Bottom happy

The breasts are shallow at the top with a round, fuller breast tissue at the bottom.

## Bright & perky

The breasts slope straight down where the breast tissue is round above and below the apex.

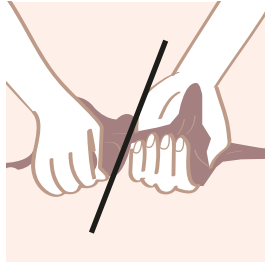

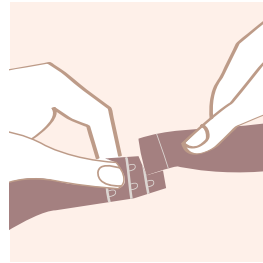

# Lingerie Care

**Hand washing**  
Preferred

**Do not wring**
